

## INFO SLIDE

# BRP Cloud BI

Get the full overview of how your business is performing on a wide range of parameters with the embedded **BRP Cloud BI** in your system.

Use the extended analysis to obtain valuable insights, and make the right business decisions at the right time.

## OPTIMISING YOUR TIME WITH A FULL DATA OVERVIEW

With BI, your key numbers are visualised in a clear and manageable way – saving you a lot of time analysing your data. Previously, you would have to manually make up to 10 different reports before getting the same data – which could easily take a whole day's of work. Not anymore. With BI, the same amount of data is gathered in one report and only one click away.

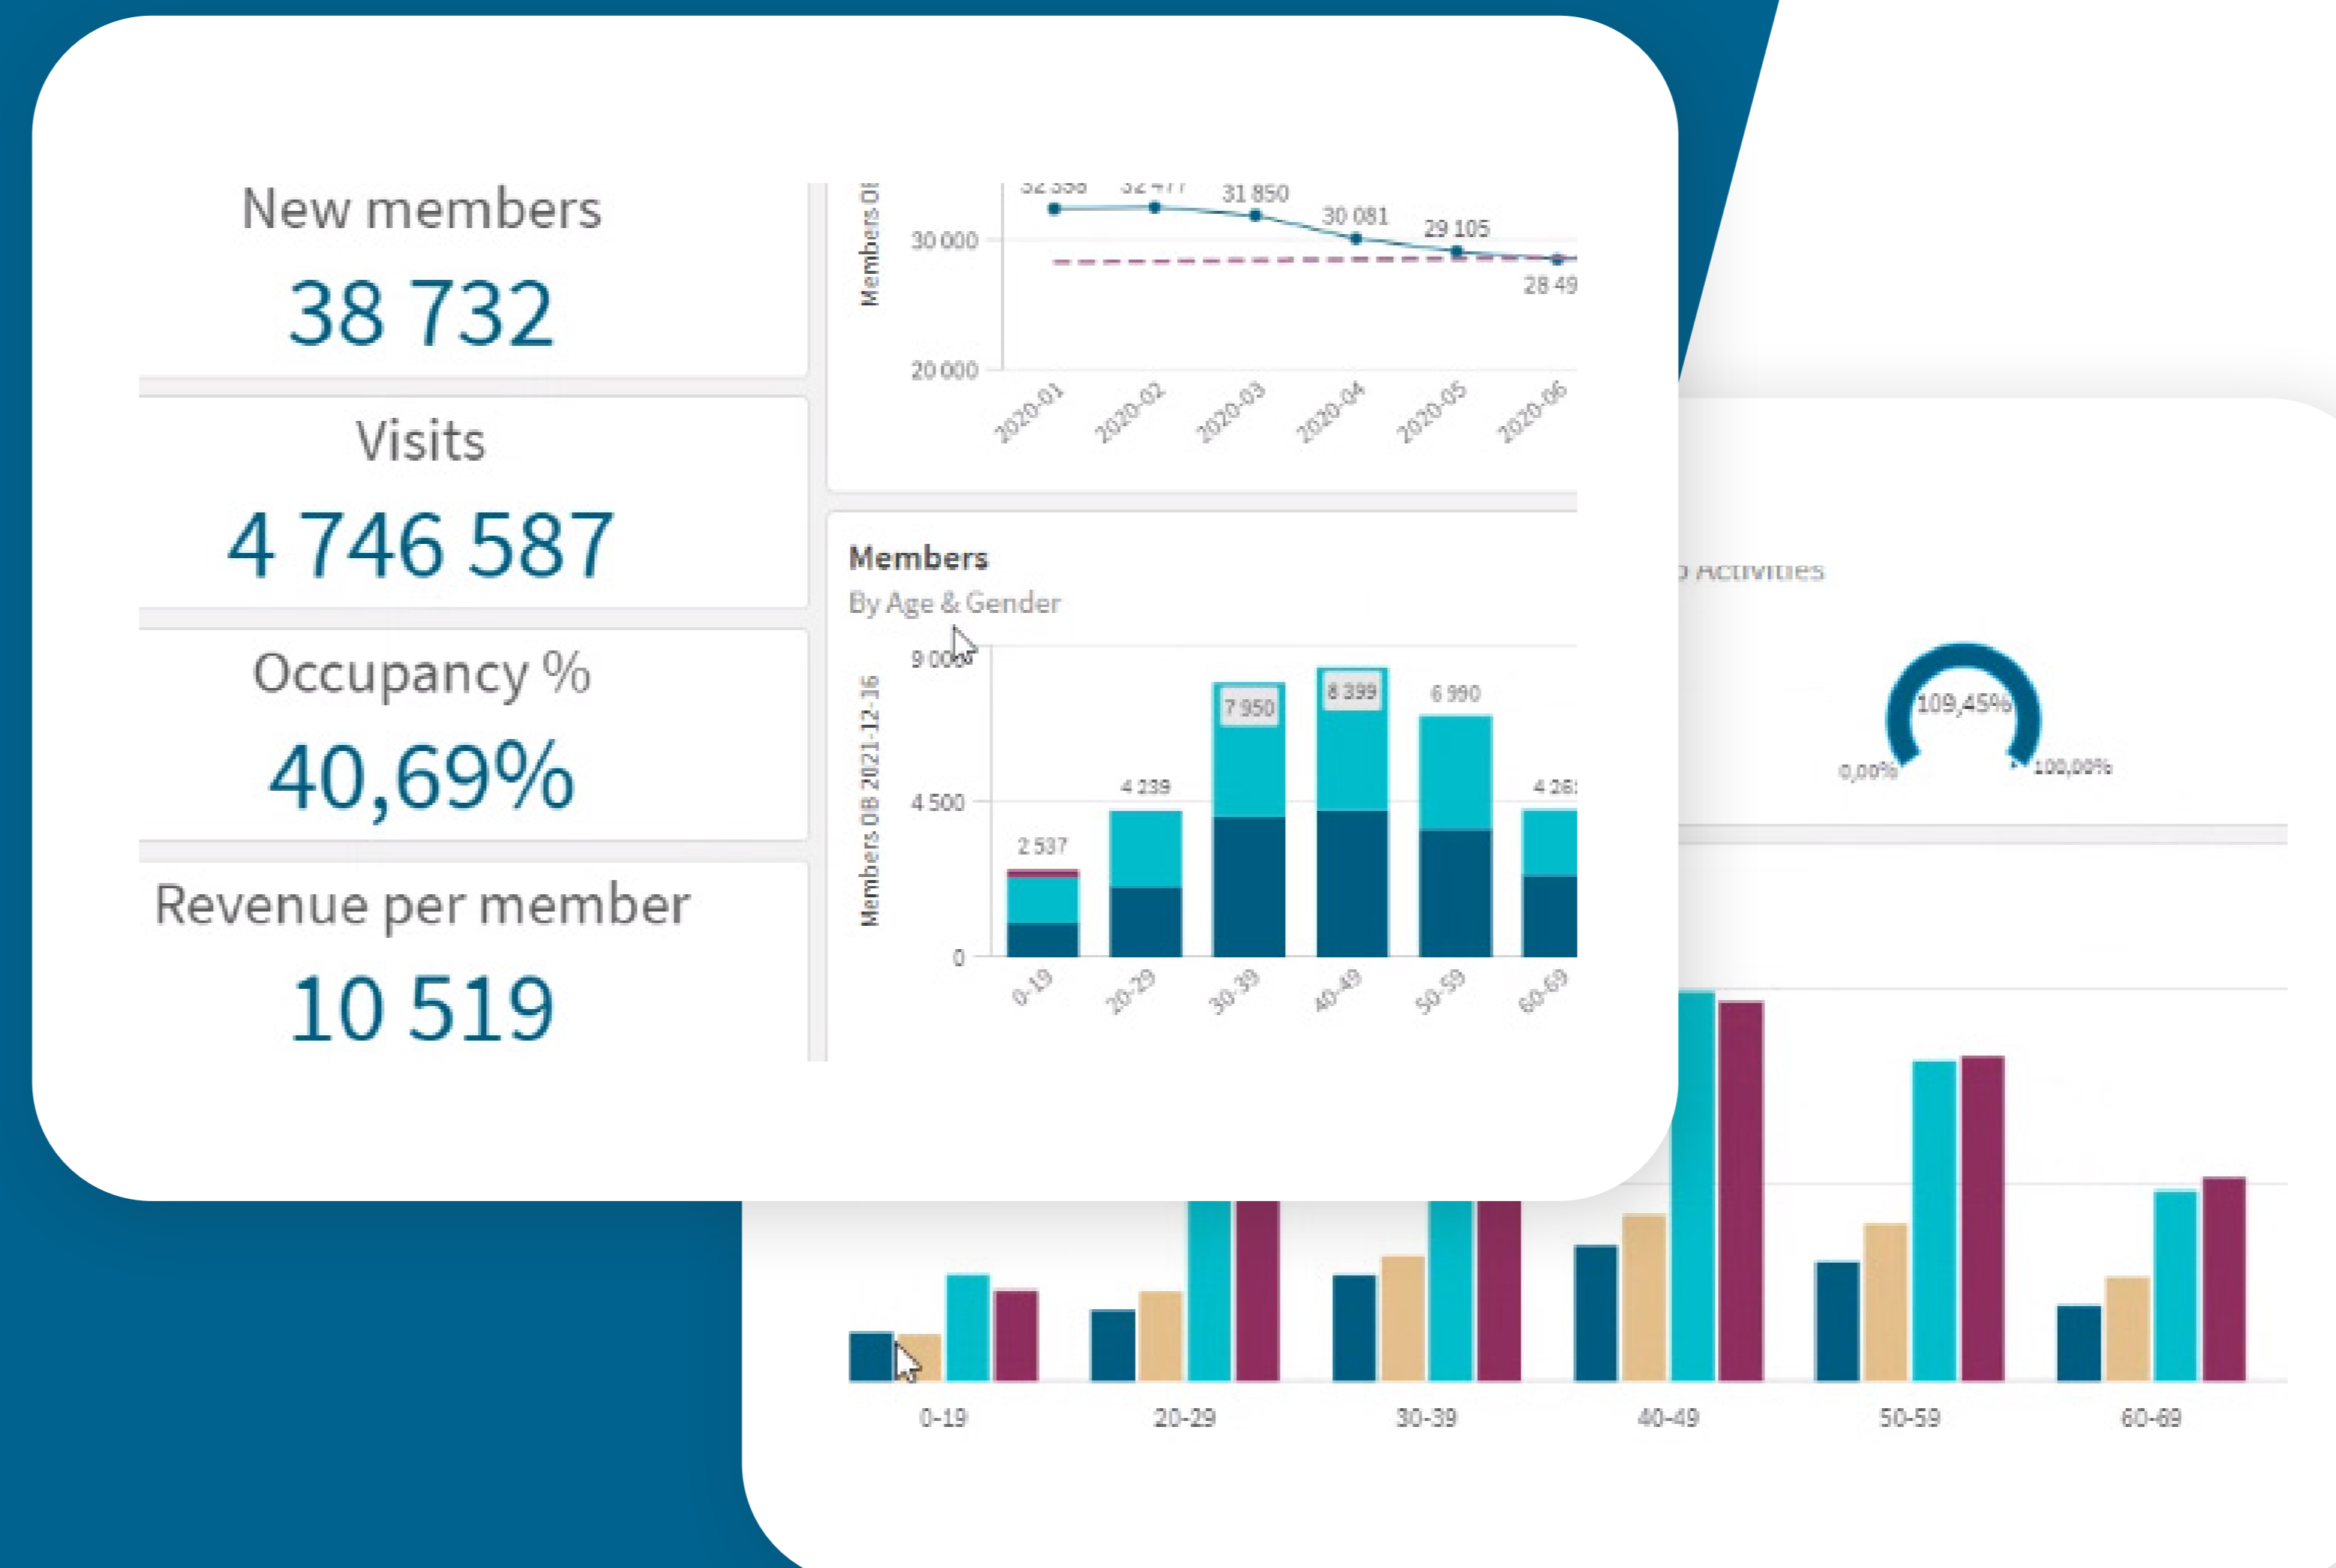

## MAKE DATA-DRIVEN DECISIONS

Your data is available from day one when you implement BI. With BI, you can do instant health checks on your business, compare crucial parameters and numbers and take action before issues arise. Choose from various filters and selections to only view data that is relevant in a particular situation, and compare with periods that make sense to you.

BRP Cloud BI includes continuous releases of new and updated

**DASHBOARDS,  
REPORTS AND  
ANALYSIS  
MODELS**

## CHOOSE FROM A WIDE SELECTION OF DASHBOARDS

Start utilising the more than 12 dashboards with interactive visualisations – with more to come.

Examples of dashboards included:

- ✓ Center report
- ✓ Member report
- ✓ Visits
- ✓ Terminated memberships
- ✓ Group activities
- ✓ + many more

## SUITABLE FOR BUSINESSES OF ALL SIZES

Get a deeper understanding of your business with BI, regardless if you are a single unit business or a larger chain.

Everyone from owners and CEOs to center managers and team leaders can benefit from the reports and be part of driving your business in the right direction.

Seize the opportunity, and get in touch today.
